

# Overview of Benefits

Beter Af Policy and Supplementary Policies 2010

## Collective

This reimbursement overview gives summarised information on the costs we reimburse if you need treatment. You can easily look up a reimbursement at our website under 'Find your reimbursements'. You can download the policy conditions, which give a full description of the coverage of your insurance, or you can request them from us.

Date of commencement 1 January 2010

# Overview of Benefits, Beter Af Policy and Supplementary Policies Collective 2010

## Guide to the Reimbursement Overview

If you are insured with us for the costs of care, then you have a 'Beter Af Policy' as your basic insurance. If you have a 1, 2, 3 or 4-star 'Beter Af Plus Policy' this is stated on your policy sheet. Take a good look at the policy sheet to see how you are insured before looking up reimbursements.

How to find the reimbursement of a treatment in this overview?

1. Look up the treatment in the left-hand column. The treatments are listed alphabetically.
2. In the second columns you will see the reimbursement from the 'Beter Af Policy' (the Basic insurance).
3. In the following columns you will find the reimbursement you are entitled to with the 'Beter Af Plus Policy' supplementary insurance.

**NB:** The reimbursement from the supplementary insurance is in addition to the reimbursement from the basic insurance.

### Remaining Supplementary Policies

You will not find the reimbursements from the dental insurance under the heading Dental Care. As the Beter Af Dental Policy is a separate insurance, these reimbursements are listed separately in the overview. This also applies to the Beter Af Extra Benefits that you receive free of charge because you are collectively insured.

### Contracted providers

You will also see the concept, 'contracted care', in the overview. As we have concluded contracts with a large number of care providers, this often enables you to benefit from more attractive reimbursements. You can see which care providers are contracted at our website, using the Care Seeker. In addition there are lists on our website with the amount of the reimbursement by health care providers not contracted by us. you can download this information from our website or you can request it from us.

### Exemption from Compulsory Excess due to Care Mediation

If you allow Care Mediation to make an appointment for you for treatment then, in some cases, you are exempt from your legally compulsory excess. This includes a number of treatments for cataracts, groin hernias, hip and knee arthritis, gall bladder, first cruciate ligament and cartilage, breast cancer, back and neck hernias and incontinence. Our care mediation ensures good care, lower costs and shorter waiting times.

### Our consent

A number of treatments indicate that you require our consent if you wish to claim reimbursement. You can request this consent ('authorisation') by telephone or via the website.

### Abbreviations

A number of abbreviations are used in the overview: **AMAR:** Achmea Medical Aids Regulation, **MRS:** Medicines Reimbursement System, **cy:** calendar year, **km:** kilometre, **max:** maximum, **min:** minimum, **m:** month(s), **pp:** per person, **Itc:** Independent treatment centres

## Beter Af Policy and Beter Af Plus Policy

Always read the terms and conditions of your policy to see if you are actually entitled to the compensation
